SmartCerts® Digitization

OnRule is bringing digitization to **product regulatory records**, making it easier and quicker to search a record by important attributes, and giving an accurate analysis.

Problem Statement: From the maze of hundreds and sometimes thousands of compliance records, finding a specific record of interest in less than a minute is the need of the hour in today's digital and automated world.

It is not practical to find relevant records by conducting a manual search. Therefore, an ability to narrow down on applicable records for a product-market-record type mix using systematic but fast queries is highly warranted.

Our Solution: *SmartCerts® digitization of record by capturing and appending key attributes characterizes records for a quick and easy search:*

Issue-Date	03/03/2021
Shared-with	Compliance Team
Standards	ANSI/UL 62368-1 2nd Ed:2014 CAN/CSA C22.2 No. 62368-1-14
Disciplines	Product Safety
